Contrast requires a Creatinine for anyone over 60, diabetes, kidney disease, chemotherapy, etc... This can be done onsite prior to start of exam.

*Extremities / Joints with history of infection, abscess, ulcer, cyst or mass usually require without & with contrast agent per radiologist.

Federal Necessity: Federal Regulations require that only the tests that are necessary for diagnosis and treatment of a patient's condition be ordered. The ICD-9 code is required to prove medical necessity.
